📘 Git Basics

🔹 Initializing a Repository

- **Create a local repository with default branch (master):**
- git init
- **Create a local repository with main branch:**
- git init -b main

🔹 Checking Commit History

- **View all commits:**
- git log

🔹 Staging Files

- **Add a specific file to the staging area:**
- git add FirstCode.java
- **Add all files to the staging area:**
- git add .

🔹 Committing Changes

- **Commit staged files to local repository:**
- git commit -m "My First Commit"

When changes are made again:

1. **Add updated file to staging area**
2. git add FirstCode.java
3. **Commit the changes**
4. git commit -m "My Second Commit"

🔹 Commit Without Staging

- **Automatically stage tracked files and commit:**
- git commit -a -m "My Third Commit"

- **Viewing Changes**
  - **See differences between working directory and last commit:**
  - git diff
  - **See differences for staged files:**
  - git diff --staged

- **Removing Files from Git Tracking**
  - **Remove file from Git but keep it locally:**
  - git rm --cached credential.txt

- **Working with Remote Repositories**
  - **Add a remote repository (after commit):**
  - git remote add origin git@github.com:AbhiKr82/Git-Course.git
  - **Push code to remote repository:**
  - git push -u origin main

- **Tagging in Git**
  - **Create an annotated tag:**
  - git tag -a v1.0 -m "First Release"
  - **View all tags:**
  - git tag
  - **Push a specific tag to remote:**
  - git push origin v1.1

- **Branch Management**
  - **Create a new branch and switch to it:**
  - git switch -c feature2
  - **View all branches (local + remote):**
  - git branch --all
  - **View local branches only:**
  - git branch

- **Switch to another branch:**
- git switch main
- **Switch to the previously used branch:**
- git switch -
- **Delete a branch:**
- git branch -d feature2

- **Pulling Changes**
  - **Pull latest changes from remote branch:**
  - git pull origin main

- **Checkout to a Specific Commit**
  - **Move to a previous commit using commit hash:**
  - git checkout eab54b8616e53e79a1d9fa6371d66228db31412e
